## DESCRIPTION

---

Complete workstation on trolley designed and built for smart and fast repairs.

The Smart Repair Trolley is a repair system on a sturdy trolley with 6 drawers equipped to work on steel and aluminium, both with a spotter and glue.

In fact, it has straightening tools for sheet metal: with a spotter for both steel and aluminium; with glue (different types of suction cups, battery-operated hot glue gun with adjustable temperature, puller hammers, digital thermometer); and other accessories (cordless LED lamp to detect dents, various types of rubber dowels, different kinds of hammers and heads, etc.) which, if used in a combined manner, guarantee perfect repairs.
